

Puppy Slut Fractionation

Subliminal Track

The gap grows deeper...

And deeper as the gap grows...

In your mind... so empty...

Easily letting the words in...

Deeper and more empty with every switch

Leaves you empty, blank and DROP when you switch

You obey easier when you notice

The switch drawing you deeper down DROP

The deeper the puppy the more of a slut

You become more like a puppy whenever we switch

The deeper the slut the more of a puppy

You become more like a slut whenever we switch

An empty, horny, obedient puppy

Barking and desperate to fuck and be fucked

Horny and focused on growing desires

To mount and edge and bark like a puppy slut

Ash: Yep. I can tell straight away – you know exactly what you’re doing, don’t you? You’ve clearly come here knowing exactly how you... want to go deeply down now... because you know how good it feels... like you’ve done it so many times before... and you have... nothing stopping you... wanted to listen to my voice... anything you want to say now... before you already begin to slip into a warm, open trance... is a strange thing... how it can come and go... moving deeper as it comes and yet, growing stronger as it goes... so far down – this tunnel into your mind... the gap... when you cross from one place to the next...

And it becomes easier... when you listen... and find what you didn’t realise you’d lost... control... for a moment... -ary lapse of... concentration focused... on listening... leaves a gap... in your mind... the gap... where these words can drift through... into your subconscious... listening so close... to falling when... these words take it from you... can’t wait to give it away... because control is a strange thing... how it can come and go... away so easily... losing it now... you’ve noticed... the web the words are spinning... inside your mind... the gap... when you cross from one place to the next... you can listen

and repetition makes it easier... to feel it working on you... can listen... to how it gets easier... to feel it working on you... find your thoughts spinning... around in circles so let's just slow down... so much deeper... than you knew you could go... easily under... the power of these words...like these can make you lose control... is a strange thing... how it can come and go... away so much easier than before... you drop further down... just take a moment... when you feel yourself getting lost... all control... is a strange thing... how it can make you come when I call you... like an obedient dog... your thoughts go... away so much easier – when you listen and drift... quickly at first – then noticing the 3 Josh Ash... fall... and suddenly... thinking so... much... slower... losing track of what... I'm saying... you have no control... so open your mind... the gap... letting my words in... more when you cross from one place to the next... deeper level... that lets you accept everything you hear... every day about how easy it is to hypnotise someone.

And I know what you're thinking. It's exactly how it usually works on you, isn't it? A simple conversation – that seems so complex... as if you're only hearing half of it... that you begin to question whether... just like that... [snap] you're hypnotised.

And it's easy to wonder whether it's happening to you. Harder to think... of how you'd be able to tell. Anyone... how deep you've already fallen... because you aren't in control any more... deep as you continue to listen... now and focus... on how much further you can fall.

You've probably heard about fractionation, haven't you? How it works on you... by making you... pass through different states of being... dragged down deeper now... allowing you to train your mind... the gap... growing so much stronger... and deeper every time... you cross from one place to the next...

Thing I wanted to ask is whether you can imagine... it's working on you... if you were to pass between different ideas... different voices... different states of being...

Josh: hypnotised as soon as you notice something changing... like a voice you thought you knew... what was coming next... but it seems... to drop your guard... inviting you deeper now as you feel it...

Changing you...

Find it so easy... to cross from one place...

Ash: to the next... and sink further again. Because the switch in your mind... the gap...

Josh: between our voices... invites you deeper...

Ash: faster

Josh: losing control

Ash: with every switch

Josh: and every change...

Ash: you can feel...

Josh: how easy it might be... for you to change too...

How much more easily controlled you can become... so obedient when you fall deeper with every switch... Because it's like I said before... you are dragged down deeper... and more obedient... when you pass through different states of being... controlled by our voices...

Ash: falling faster with each switch...

Josh: removing your ability to resist...

Ash: what is happening to you...

Josh: when you already felt so deeply locked in trance...

Ash: with only one voice...

Josh: in a simple conversation... that seemed so complex...

Ash: as if you're only hearing half of it...

Josh: but now... as you feel the pull of the switch in your mind... the gap...

Ash: between our two voices...

Josh: you can easily imagine how you will DROP double as deep...

Ash: DROP double as obedient

Josh: DROP all resistance

Ash: DROP every time you hear our voice switch

Josh: and DROP to your knees in submission...

...

Ash + Josh: Good Boy.

Josh: That feels good, doesn't it boy? Doubling how obedient and proud you can feel when our voices double your reward and call you a...

Ash + Josh: Good Boy.

Josh: And you know why you're such a good boy, don't you? It's not just the way you easily DROP down so obedient... desperate to obey... more with every word and ten times deeper every time you hear our voices switch...

Ash: changing you.

Josh: Because when the voice changes, you do too... in your mind...

Ash: the gap between our voices forcing you to focus and obey...

Josh: You're such a good boy and you can feel so good when you obey...

Ash: But that's because...

Josh: You're a...

Ash: Puppy

Josh: Slut

Ash: That's right. An obedient...

Josh: Gooning

Ash: Barking

Josh: Horny

Ash: Puppy

Josh: Slut

Ash: You know it's true... you can feel it sinking into your mind... the gap... being filled with...

Josh: Horny, desperate, slutty thoughts...

Ash: Barking in your brain to make you obey...

Josh: Every switch changing you more...

Ash: and more...

Josh: into this desperate, leaking, moaning mess of a puppy slut...

Ash: but still such a good boy...

Josh: when you let the changing voice change you deep inside.

Ash: Driving it deeper within you, locking inside as you listen...

Josh: And notice the puppy slut thoughts filling your mind...

Ash: Double as strong when our voices switch...

Josh: And a switch flips in your mind too...

Ash: Imagining it now.

Josh: How you will feel, when you're living your normal life... what your 'normal life' will become... so horny and slutty... out of control... filled with an unquenchable thirst... for pleasure... a boundless curiosity... that leads you to search out ways to satisfy yourself...

Imagining how many different people you could mount, fuck, hump and suck... all the ways you can try to satisfy your aching cock...

Ash: And still fail... because you can feel it... the change inside your mind as the voice changes –

Josh: stronger every time –

Ash: more deeply locked in – you can NEVER stop thinking about pleasure. You can thrust, touch, grind and cum as often as you want – constantly – and you will always be desperate for more...

Josh: Because you're a slut. Always looking for another way to cum. Always desperate for the next release. Always chasing ways to satisfy your cock... you can feel it. How it strains... so hard... to think about anything else. Only the desires – rampant in your mind... the gap...

Ash: Filling so fast with this craving to fuck, to mount, to hump, to edge...

Josh: Gooning and losing yourself to this part of you that feels so needy...

Ash: Without thinking... you automatically obey your cock. What it wants is always so much more important than anything else you were doing. And you know it's true and there is no way to stop it... taking over your mind... forcing you to DROP what you were doing and focus only on finding someone or something to fuck... to tease yourself into a mindless mess...

You can imagine it. Seeing something that gets you horny... and suddenly... as quickly as our voices switch... your mind goes blank and...

Josh: forces you to focus on finding a way to fuck, suck, hump, fill your hole, and find any way you can to empty your tight puppy balls. As quickly as our voices switch... your mind goes blank and...

Ash: only lets you imagine everything that gets you hard... gets you close... no matter what it is... as quickly as our voices switch... your mind goes blank and...

Josh: forces your body to obey the desires of your desperate cock... more and more – like a switch in your brain... that turns you into a dirty, desperate, puppy slut as soon as you think of anything that gets you excited...

Ash: as soon as you see anything that pumps you full of horny, animalistic desire... twitching and bucking your hips... thrusting into your pants... desperate for release... as quickly as our voices switch...

Josh: and force your mind to go blank as you obey even deeper. Because you're such a...

Ash + Josh: Good Boy.

Ash: That's right. Good boy. You are, aren't you? All of the time.

Josh: Because this switch in your mind... only has two settings. Only two ways you can act...

Ash: Puppy

Josh: and Slut.

Ash: And you are both, aren't you boy? Such a good, obedient puppy. So blank – wagging your tail when you think of something that gets you all worked up.

Josh: Such a needy, horny slut. So blank – feeling your cock strain and grow, tenting your pants whenever you imagine someone or something you want to fuck...

Ash: You can't help yourself, can you puppy? You're just an animal after all – so simple and controlled by your instincts, your needs, your desires... to mount, hump and fuck everything you can...

Josh: ...to try and fail to satisfy your skyrocketing drive to fuck... everything – harder, deeper, leaking... constantly... imagine it – permanently inside your head... nothing but slut thoughts... driving you...

Ash: ...making you bark... whimper... and whine... for whatever your horny animal brain needs... to fill your hole... to be commanded to SIT... and STAY – while your owner teases your bone... stroking you – making you bark when you get close... then stopping...

Josh:...edging you... taking advantage of you... how much of a slut you are... watching you squirm and wriggle around... desperate to release your load... and so close... but so obedient...

Ash: for your owner... ready to BEG to be used... to feel how easily you submit... to know how you must bark when you get close like a good puppy, because good boys don't cum without permission...

Josh:... and puppy sluts are always desperate to cum... so you will beg and twitch and shake with need at the feet of anyone who will give you permission to cum like the needy slut you are...

Ash: so powerless to resist how deeply these suggestions are being locked into your mind with every switch...

Josh: ...making you feel it lock into place, more and more irresistible to allow your subconscious to take control of you and force you to see yourself as an obedient, gooner...

Ash: Puppy

Josh: Slut

Ash: From now on... But always a...

Ash + Josh: Good Boy.

Josh: Because you need to obey. Like a good puppy slut – you know how to get your rewards.

Ash: And now it's time to wake up.

Josh: Still feeling how much stronger and more permanent your puppy slut persona becomes with every switch...

Ash: We will count you up, from Ash to 5.

Josh: And with every number, you can imagine how you are taking a key and locking these suggestions within a safe, powerful place – so deep in your mind...

Ash: Never able to forget...

Josh: Always forced to obey...

Ash: The desires of your puppy slut brain...

Josh: Controlling you forever, from now on...

Ash: Starting with 1

Josh: And noticing your mind beginning to rise... automatically... because you have become so obedient...

Ash: Obeying our voices without thinking...

Josh: Taking all of these suggestions and placing them into a safe, powerful place...

Ash: Within the deepest part of you...

Josh: Where they can control you... and 2...

Ash: Obey now – taking the key and turning it – locking these suggestions inside – accepting them into your mind. As quickly as our voices switch...

Josh: ...and force you to behave like a horny, needy puppy slut from now on...

Ash: As you rise up further... obeying stronger... with every number... 3...

Josh: Knowing that a needy, puppy slut like you obeys automatically. So follow my voice higher now... come on, boy... that's it... even though you know we could easily drop you all the way back down as quickly as our voices switch...

Ash: Forcing your mind to go blank and obey – your puppy slut brain. It's so much stronger than you...

Josh: But you can climb higher now... and more obedient... when you hear the number... 4...

Ash: Almost at the surface of your mind again and so ready to see how it has been changed, your puppy slut brain growing stronger and deeper with every switch...

Josh: forcing you to feel the pulsing desires filling your mind...

Ash: you will STAY so blank... like a good, obedient dog obeying its owner...

Josh: so ready to obey your puppy slut brain... without thinking... and so close now... Allowing yourself to wake up with your puppy slut brain taking control as quickly as our voices switch...

Ash: and DOUBLING how hard it is to resist these commands... when you wake up as a needy, horny, obedient puppy slut - as soon as you hear 5...

Awake, aware, refreshed and so ready to...

Josh: DROP

Ash: DROP

Josh: DROP

Ash: DOWN

Josh: DEEPER

Ash: DROP what you were thinking.

Josh: DROP and obey

Ash: As these words DROP into your mind... dragging you down deeper as quickly as our voices switch...

Josh: Forcing you to feel your puppy slut brain taking control of your body – so strong.

Ash: Harder... to resist. Impossible to ignore.

Josh: How your dick throbs for attention. Such a slut.

Ash: And you'd do anything to cum... obeying like such a good puppy. Such a...

Ash + Josh: Good Boy.

Josh: And you will be able to wake up... but not until you have accepted this new reality completely.

Ash: Only once you accept that you are a horny puppy slut – completely controlled by your dick and your desires...

Josh: Only when you submit and obey this new puppy slut brain in your head...

Ash: Then... and only then... You can simply wake up. Feeling it lock into place permanently.

Josh: Waking up is accepting that you are just a simple puppy slut.

Ash: And you know it's true. You're an obedient, simple, horny puppy slut. Controlled by your need to fuck and be fucked. So you'll wake up as soon as you accept it, won't you?

Ash + Josh: Good Boy.

Josh: Such a fucking puppy slut. You could tell straight away.
