Quick Clicks Arousal

Echoed suggestions key:

[Echo in sequence]

(Reverb in parallel)

[click]

Maybe you already know how this sound makes you feel… [more aroused]

And if you do, you probably understand how it works on you… [more every time]

If you haven't already, go ahead and get your cock out for me. [Obeying already…]

I want you to stare at it – but don't touch. [STAY]

Good boy.

[click]

It isn't difficult to understand how it starts… [between your eyes]

But it's easy to see how hypnosis makes it harder and harder… [between your legs]

[click]

And it feels so good… so it's not like you wouldn't want this… [click] [inside your head]…

Arousal begins in the mind, after all… before it rushes into your body… [faster and stronger]

So it's easy to imagine why you're choosing to slip under deeper the longer you listen… [the harder you grow]

Feeling bigger and heavier… Because the bigger you are… the harder you fall… as you DROP [SNAP echo]… [close your eyes]

Good boy.

Now, as soon as you hear the click – I want you to open and lock your eyes onto your cock, then begin to stroke yourself… letting your hands move in whatever way feels best to pump your pleasure higher and higher… until you DROP all the way back down here and even deeper than before…

Easy for a good boy to follow and obey simple sounds, isn't it?

[click]

…Find your cock and get to work, good boy.

That's it.

Noticing how every [click] makes it harder… (to resist)

And easier to feel your strokes speed up with every [click]… (going deeper)

Building the pressure as you wait for the [click]… (becomes stronger)

Makes you tense up… and forget to breathe, focusing on the [click]… (harder and harder)

Doubles your pleasure… twitching [click], thrusting [click], deeper and…

DROP [SNAP echo] [close your eyes]

All the way down and deeper… letting your hand STAY still as you obey.

I don't mind if you hold onto your cock, feeling it pulse in your grip – but you only open your eyes and stroke again as you hear the next click.

Becoming so desperate… waiting like this… focusing and listening for the simple sound that brings you pleasure…

Anticipating the rush when you open your eyes and watch your cock clench harder in your hand now…

[click]

Good boy.

Finding your cock strains harder and harder with every [click]…

Rocking your hips into your hand when the pleasure [click] surges down your spine…

Wondering how long I'll let you stroke before you DROP [SNAP echo]

Deeper than before. DROP [SNAP echo] through the floor of your mind… [eyes closed]

DROP [SNAP echo]…

And make your hand STAY… nice and still… holding your leaking cock.

[laughs]

Okay, maybe that was mean…

And I think you've learned the rules, so it's easy for a good boy to follow and obey simple sounds, isn't it?

[click]

There it is, boy.

The surging pleasure of pumping your cock harder with the [click]

Doubling every desperate movement thrusting [click] deeper inside your mind

Letting every stroke grow double as intense with the [click]

Because, at any moment, I might make you… [click]

Double as horny and close to the edge… more when I [click]

More when you stroke [click]

More when you buck your hips as I [click]

Tie your arousal to the sound of the [click]

Locked together and tightly tied like a knot.

The [click] makes you horny, more aroused and intense…

[click] Harder and harder…

[click] Closer and closer…

[click] Straining and squeezing…

The [click] makes you horny…

The DROP [SNAP echo] makes you stop… And DROP [SNAP echo] deeper every time… [you close your eyes]

Because it's easy for a good boy to obey simple sounds, isn't it? Even as your cock is throbbing for more… you STAY falling faster the more you twitch and strain…

And you're already waiting for it… the next click… that sets you off again… focusing on your cock and feeling it respond… imagining the surge… the rush… the pleasure…

It's such a natural state for you…

To STAY listening for simple sounds… to STAY ready to feel the intense rush of arousal that surges between your legs as soon as you notice the…

…way you feel right now proves it. How it's easy for a good boy to obey simple sounds. Did you think I was going to [click]

Just focus on your cock and obey the… [click]

Makes you writhe with pleasure and thrust…

[click] Harder and harder

[click] Closer and closer

[click] Straining and squeezing

[click] Your balls feeling heavier

[click] And heavier… with the weight of your load

[click] Tighter, clenching…

[click] Double the pressure…

[click] Double the need…

[click] Double the tension…

Your cum swelling

At the base of your cock

Rock-solid, straining and aching to…

DROP [SNAP echo]… [close your eyes]

Deeper… and STAY. Good boy.

Right on the edge…

Imagining how you might have only needed one more [click]

To inject you with liquid lust and spill your load…

But you DROP [SNAP echo] instead… [Close your eyes. Obey]

And wait… like you always do… for the simple sound… so easy for a good boy to crave it…

To respond to it… pumping your pleasure to new heights with every [click]

Growing bigger

[click] Twice as hard and rising higher… but the higher you are, the further you fall when you DROP [SNAP echo] even deeper… [so obedient. Eyes closed]

Because you are such a good boy. Deep inside. You obey and STAY. So horny. So ready – to unleash your arousal – flooding your body the moment you hear the [click]

Brings you right back to the edge…

[click] Leaking and trembling, aching for more…

And the [click] doubles the depth of the desire when you DROP [SNAP echo] [locking your eyes]

You lock the sound of the click in your mind. You obey and tie this arousal to the click. Your subconscious will listen like a good boy and respond…

Stronger when you notice the [click]

Makes you focus on your cock responding to the [click]

Glues the knot tighter, tying your arousal to the [click]

Makes you leak and thrust and throb…

[click] Harder and harder

[click] Closer and closer

[click] Straining and squeezing

[click] Feeling how you leak

[click] Balls ready to burst

[click] Your load rising up in your shaft

[click] Ready to shoot as you strain with pleasure

Waiting for the sound that lets you erupt…

[click] **CUM**

And tie this pleasure together forever with the [click] [continue clicks in background]

As you pump and thrust and shoot your load out in ropes… feeling ecstasy as your balls empty… the tickle of every last drop of pleasure jetting up your shaft… and marking this place with the seed of your desire… marking your mind with the power of the [click]…

Feel it sink in down with you now when you DROP [SNAP echo] … deeper and deeper… all the way down… you DROP [SNAP echo] and keep falling along with the click…

Knowing that, from now on, the click forces your body to respond… forces you to focus on your cock… forces you to feel your arousal firing up, out of control and stronger every time you hear it… And you know it's true… because here you are laying in your own mess like such a good boy – and you proved how easy it is for a good boy to obey simple sounds, didn't you?

Now take however long you need to accept it. Accept how you've been changed. And when you are perfectly comfortable – safe in the knowledge that your subconscious will always listen closely for the sound of the click – making you instantly, unbelievably horny as you hear it…

The moment you accept the power of the [click]. You can notice how you obey and…

Wake up.

Fully awake… feeling so happy and horny to be a good boy and obey that simple sound.

DROP [SNAP echo] [Obey.]

And tie this pleasure together forever with the [click]

As you **DROP [**SNAP echo] even deeper still…[Obey]

Did you think I'd let you waste your load? [click]

Feeling your cock struggle and throb for release in your hand while you STAY. Denied.

And learn that every [click] rockets your arousal… so high and higher and further to DROP [SNAP echo] [Obey]…

Because you know that the ultimate pleasure is submission. And you submit. You obey. Without thinking. Like a good boy, so easily now… when you hear the [click]

Thrusting arousal so deeply into your mind… Locking this association so deep inside it becomes a natural part of you… tense up with arousal when you hear the [click]…

Because there's no better way to make a good boy obey the [click]…

Than by keeping you pent up, obedient and desperate. Wanting it… [click]…

To feel it sink in down with you now when you DROP [SNAP echo] … deeper and deeper… all the way down… you DROP [SNAP echo] and keep falling along with the click…

Knowing that, from now on, the click forces your body to respond… forces you to focus on your cock… forces you to feel your arousal firing up, out of control and stronger every time you hear it… And you know it's true… because here you are laying in your own mess like such a good boy – and you proved how easy it is for a good boy to obey simple sounds, didn't you?
